TRADE AND TOURISM IS OUR HOME

In 21 European countries, we are represented with our brands, stores and travel agencies – on site and online. Our major core business is the food retail. 70 per cent of our total external revenue is generated in Germany.

COUNTRIES WE OPERATE IN

1927

SEVENTEEN PURCHASING COOPERATIVES JOINED FORCES TO CREATE “Revisionsverband der Westkaufgenossenschaften” – or simply: REWE – for the purpose of organising the joint buying of food. A cooperative group that is now a thriving international business was born. As a cooperative with a tradition of 95 years, we are well aware of our environmental and social obligations towards future generations. Securing a sustainable future is our mission.

SINCE 2008, sustainability has been an integral part of the REWE Group’s mission and daily business through its group-wide sustainability management. The approach is based on four pillars: “Green Products”, “Energy, Climate and the Environment”, “Employees” and “Social Commitment”.
